UN

United Nations

Founded in 1945, the United Nations serves as the primary international platform for global cooperation, peace, and security. With 193 member states, it remains dedicated to addressing the world's most pressing humanitarian and developmental challenges.

UNITED NATIONS STRUCTURE

Main Organs of the UN

01

General Assembly

The main deliberative body where all member states are represented to discuss global issues.

02

Security Council

Responsible for maintaining international peace and security across the globe.

03

ECOSOC

Promotes international economic and social cooperation and development.

04

Court of Justice

The primary judicial organ that settles legal disputes between member states.

05

Secretariat

Handles the essential administrative work and daily operations of the United Nations.

06

Trusteeship Council

Originally created to supervise the administration of trust territories.

GLOBAL GOVERNANCE

> ***The United Nations stands as the essential pillar of global cooperation, bridging nations to secure peace, foster development, and protect the dignity of every individual.***

- Peacekeeping operations that stabilize conflict zones and protect vulnerable populations.
- Humanitarian assistance delivering critical aid to communities in crisis.
- Sustainable development initiatives driven by WHO, UNESCO, and UNICEF.

Thank you for your attention.

We appreciate your time and commitment to global progress.
